The Nomination Committee nominates members to Rejlers' Board who are then proposed to the AGM. The Nomination Committee's work begins with an evaluation of the incumbent Board. When making nominations to the future Board, the Nomination Committee takes into consideration the potential members' strategic skills, education and any other Board work.

The Nomination Committee also solicits points of view from the principal owners. The Nomination Committee submits proposals regarding remuneration of members of the Board at the AGM. The Nomination Committee also submits proposals regarding the election of auditors.

The Nomination Committee charged with preparing agenda items prior to the 2021 AGM consists of Kent Hägglund representing Peter Rejler, Lisa Rejler representing Jan Rejler and Mats Andersson representing Nordea Fonder. The Nomination Committee must draft proposals regarding: the AGM chair, the number of Board members, fees to Board members, Board members and Chairman of the Board, the number of auditors, how the Nomination Committee should be appointed before the 2022 AGM and the Nomination Committee's assignment. As the basis for the Nomination Committee's work, the chairman of the Board and the CEO submitted a report on the work of the Board during the year. Furthermore, an annual evaluation of the Board was carried out on behalf of the Nomination Committee.

### Diversity

All Board assignments in Rejlers AB aim to maintain and improve the Board's overall effectiveness. In the election of Board members, Rejlers therefore strives to have adequate expertise within the company's operations, business areas, markets and development. To achieve this, a broad distribution of characteristics and competencies is strived for. In addition, diversity with regard to age, gender, geographic origins, education and professional background is important to take into account. Rejlers actively works for diversity on the Board.

### Board of Directors

Rejlers Board and the Chairman of the Board are appointed by the General Meeting. The Board approves Rejlers strategy and objectives, issues steering documents, ensures effective evaluation of operations and monitors the company's development and financial situation. During the 2020 financial year, the Board held 12 recorded meetings, of which 2 were by letter or e-mail, minutes on an amended dividend proposal and formal decision documentation for tenders. Representatives from Group management and other management personnel regularly participated in Board meetings during the year to discuss issues in their respective areas. The Board is also responsible for acquisitions and divestments of operations, major investments and the appointment of the CEO. The Board also approves business plans, the annual accounts and monitors the work of the President.

The union organisations appointed Björn Lauber and Sten Pettersson as Board members and Tore Gregorsson as a deputy member.

The Chairman of the Board is the link between Rejlers' CEO and other Board members.

The Chairman is tasked with directing the work of the Board and ensuring that the Board complies with applicable laws, rules and recommendations. The Board is evaluated on an ongoing basis, both in respect of the Board as a whole and its individual Board Members. During 2020, the evaluation was carried out

in the form of a Board questionnaire under the direction of the Nomination Committee. The entire Board took part in the questionnaire and discussed the evaluation. On the same occasion the Board evaluated the CEO and the company's management in their absence, but with the company auditor present. The company auditor participated in one Board meeting in connection with closing the annual accounts. The company's interim report for the third quarter was reviewed by the company's auditor and reported to the Board's Audit Committee.

#### Internal control

At present, it is the Board's assessment that the company's size and complexity do not motivate a special internal audit unit, but rather that the accounting function will take care of the continuous controls and conduct improvement projects in financial management and control. Internally, audits are done of the commissioned work, follow-up of outcomes and potential needs for changed procedures.

#### Audit committee

In connection with the statutory Board meeting after the 2020 AGM, the Board appointed an Audit Committee, comprising Jan Samuelsson (Chairman), Helena Levander and Peter Rejler. The Audit Committee held 11 meetings during the year. The committee reporter is the company's CFO. The Audit Committee has the main task of ensuring compliance to established principles for financial reporting and internal control. The Audit Committee also monitors the company's continuous risk management, establishes supplemental instructions to the auditors for the audit effort, and monitors compliance to laws, ordinances, listing agreements and the Swedish Corporate Governance Code.

The Audit Committee also makes sure that other assignments in addition to audits carried out by the company's auditors are within the framework of approved policy. The Audit Committee reviewed steering documents and policies during the year. In addition, the Audit Committee monitors changes to audit rules that may have an effect on the company's financial reporting and the external financial disclosures, and it also evaluates the need for an internal audit function.

In 2020, the Audit Committee conducted a procurement regarding the company's auditors and a proposal on a new accounting firm will be presented by the Nomination Committee at the 2021 General Meeting.

#### Remuneration committee

The Board has decided not to appoint a special remuneration committee. The Board in its entirety will constitute a remuneration committee and will address remuneration and employment issues regarding the President and the other senior executives based on the guidelines adopted by the AGM. The Remuneration Committee is represented by the Chairman of the Board in negotiations with the President.

#### Remuneration

Resolutions were made during the 2020 AGM regarding guidelines for remuneration of the CEO and senior executives in accordance with changed regulations. The guidelines follow new EU directives and expanded requirements in accordance with the Swedish Corporate Governance Code. The guidelines

encompass senior executives and potential remuneration of Board members in addition to Board fees. The guidelines for remuneration of senior executives shall promote the company's business strategy, long-term interests and sustainability. The forms of remuneration are fixed and variable remuneration, which shall be competitive and variable salary shall be linked to one or more predetermined and measurable criteria. The guidelines also cover other terms, such as pension, other benefits and termination by the company and resignation by the employee. The Board of Directors may decide to deviate from the guidelines in part or in whole if there is reason to do so in an individual case. The guidelines are reviewed at the Annual General Meeting every four years and at the 2021 AGM, the Board will present, in accordance with the regulations, an annual report on remuneration of the CEO and Board members paid and due that is covered by the guidelines. For the complete guidelines, please refer to pages 9-11 in the administration report.

The AGM approved remuneration of the Board in the amount of SEK 400,000 to the Chairman of the Board, SEK 300,000 to the Vice Chairman and SEK 230,000 each to the other members who are not Rejlers employees. An additional SEK 220,000 was set aside for committee work. The remuneration is unchanged from previous years. See Note 7 to the annual accounts for remuneration of the Board.

#### President and Group management

The Chief Executive Officer (CEO) is appointed by the Board and is tasked with the day-to-day administration of the company in accordance with the guidelines and instructions contained in law, the articles of association and the internal work instructions. Day-to-day management includes all measures that, in consideration of the scope and nature of the company's operations, are of an unusual character or of great significance or are expressly defined as falling within the responsibility of the Board.

Viktor Svensson began as the President and CEO of Rejlers on 22 February 2018. The CEO directs the work of Group management and makes decisions in consultation with other members of the management team.

Group management holds regular meetings under the direction of the CEO. Between these meetings, the company made regular checks regarding the status of each operation. In 2019, the vision, strategy and financial targets were set, which are guides for governance and continuous follow-up. Based on these, the respective segment has an approved annual business plan. The CEO writes a monthly CEO report to the Board where the follow-up is focused on growth, profitability, cost control and cash flow.

Group management comprised the CEO, the CFO, the Heads of operations for Sweden, Finland and Norway and the Communication Director, six members in all. Information about the CEO and the members of the Group management team, their ages, education and shareholdings, is available in the Group Management section on page 13.

#### Audits

The AGM's tasks include selecting an auditor. At the 2020 AGM, the accounting firm Deloitte was re-elected for a period of one year. Deloitte has been the company's auditors since

2013 and Johan Telander, Authorised Public Accountant, has been the Auditor-in-Charge since 2018. The Board of Directors and Nomination Committee are proposing that the 2021 AGM elect the accounting firm Ernst & Young as the new auditors.

Deloitte audited all active Rejlers companies in Sweden, Finland and Norway which were wholly owned by Rejlers during 2020.

The auditor works from an audit plan and reports her observations to the Audit Committee on an ongoing basis throughout the year. Reporting to the Board takes place in conjunction with the annual closing of accounts. A review of internal procedures and control systems is also carried out in conjunction with the audit review.

In addition to the audit review, Deloitte was also engaged for other assignments. Among other things, this concerned various accounting issues, extra audit of acquisitions and the companies within Embriq that were divested during the year. All of the assignments fall within the framework of policy laid down by the Audit Committee. Remuneration of the company auditors for 2020 and 2019 are presented in the Annual Report.

### The Board's description of the internal control system and risk management

#### Control environment

The control environment constitutes the basis of internal control. The control environment creates the culture upon which Rejlers operates and defines steering documents, standards and guidelines for the operation's actions. The control environment consists of policies, documented guidelines, manuals and instructions disseminated throughout the organisation.

The quality management system is supplemented by a series of documented directives, which include a financial manual containing guidelines for accounting and financial management together with the information policy.

Rejlers maintains a quality management system that includes procedures, instructions and templates for relevant processes. Rejlers is always busy developing and improving quality and processes in order to meet the standards customers, suppliers and employees expect of a consultancy.

The organisational structure is transparent, with defined roles and responsibilities that are communicated through documented work instructions for the Board, Board committees, the CEO and managers in the Group.

There are rules of procedure for the Board and instructions for the CEO of each company in the Group, based on the same principles as those for Rejlers AB. Each company has a board

tasked with continuously ensuring compliance with the overall guidelines and policies and making regular assessments of the company's financial situation. The boards each have at their disposal a president, who in the larger subsidiaries also has a management group.

In each of the countries concerned, the Rejlers organisation allows local units great independence. Managers at all levels have clearly delegated responsibilities and powers to develop their operations based on local conditions and their customers' needs. Regular evaluations are conducted in the organisation at both function and departmental level in order to ensure relevant knowledge of financial reporting in the organisation. The aim is the ability to guarantee with reasonable certainty that Rejlers' short-term and long-term targets are achieved. The aim of risk management and internal controls in connection with financial reporting is the ability to guarantee with reasonable certainty that the external financial reporting is reliable with regard to interim reporting, annual reporting and the annual accounts, and to ensure that the external financial reporting is prepared in accordance with laws, applicable financial reporting standards and other requirements that must be met by listed companies.

#### Information and communication

The most important steering documents regarding the financial statements are continuously updated and communicated to relevant employees over the company's intranet, information letters, regular meetings, etc. Information channels are established to communicate to concerned employees in the organisation as effectively as possible. Rejlers also has an information policy in regard to both internal and external communication.

#### Control activities

The control structure is designed to manage the risks the Board and the senior management consider significant for operational activities, compliance with laws and regulations and financial reporting. Defined decision-making procedures, including an authorization manual, are established e.g. for investments and signing of contracts. Where appropriate, automatic controls specifically related to financial reporting have been established. Most control activities are integrated into the company's key processes, such as order booking, revenue recognition, investments, supplier contracts and purchases. The IT structure is designed to handle potential risks in the entire operation. Special controls are in IT systems related to the processes that affect the financial reporting.

#### Monitoring

Each unit head is responsible for ensuring adequate internal control in the unit concerned and for ensuring that the units comply with the Group's directives for financial reporting. In addition, the internal control structure of separate, decentralised functions is reviewed by a special function. Because the Board considers Rejlers' significant areas of risk to be covered by the reviews carried out, it sees no current need to set up a separate function for internal audit at present.
